**Please give these to any members that were unable to attend.**

I want to first thank you for taking the time to hear the communities concerns. My name is April Wilson and I am here to ask that the Library adhere to a neutral stance on religion, spirituality practices, and on the LGBTQ agenda. I would like the LGBTQ agenda to be labeled as religious and it needs to follow the same guidelines that you place on other religions.

Because this board represents a community organization please take into account the viewpoints of the whole community and not merely your own. So please take a moment to consider my reasoning to include the LGBTQ agenda as religious.

I say that the LGBTQ agenda is religious because it is led by a god named Pride or also known as Hybris in ancient religion. According to my beliefs it is something other than a God. However, because of this reason, there is a push for inclusion within our nation. This god of pride desires to be worshiped and it creates an illusion to its worshipers that they have control and power themselves. This god gets its power by confusion of reality, violence, and arrogance. It preys on the weak, broken, and unknowing to support it all the while it screams love.

When community organizations introduce and publicize LGBTQ ideas to our children that organization is agreeing with their model of education which goes against my beliefs. This belief is a lie and a rejection of truth. This lie is not something to be pushed upon anyone.

However, to the people entangled with this agenda you will feel attacked because your identity is wrapped up in it but that is not my goal. This is not towards the people of the library nor the people entrapped by this lie but it is against the government's agenda that wishes to harm children and attack my beliefs all the while vilifying anyone who speaks truth. This is a dangerous agenda that threatens people if they choose not to follow. This is a nationwide form of gaslighting and people who agree with it knowing and unknowingly support an abuser to abuse its victims.

So because of differing viewpoints of the community, I would hope that the library would work to promote the truth first and foremost to protect children. Because If truth has to be forced upon anyone in a coercive manner it is not truth. Truth will always exist whether people accept it or not. Truth is based on facts. But this is anything other than the truth. The truth is God longs for everyone to know the truth and that they are already enough.

So to end my statement I am asking that all religious, spiritual, and the LGBTQ religion go through the same guidelines and none of it be promoted, preferred, or publicized by the library and for it to be placed within your policy as so. However if you choose against it, I also want it

stated within policy that you must be willing to publicize and promote my beliefs even when they differ from yours to maintain equality.
